Monitoring Jerusalem is a monthly situation report denouncing the continuous human rights violations by the Israeli Occupation forces in occupied East Jerusalem, in the form of house demolitions, home evictions, discrimination policies and violence against Palestinians.Â

This month's feature story is written by Dalia Ibrahim Muhammad Abu Hilal, one of the trainees of our last Youth group. Read : "Ni'ma, a story and a lesson ..."

In this month's issue we would like to bring your attention to the impact of Israel's separation policies and practices on Palestinian women in the Gaza Strip, West Bank and in East Jerusalem. Get to know our "Broken Families" project.
