

16 Days of Activism Against Gender-Based Violence Campaign

Monday, 09 December 2013

What is the 16 Days of Activism Against Gender-Based Violence Campaign?

Every day, one in three women worldwide faces abuse, violence and rape. In no country in the world are women free from this threat to their health. In the Occupied Palestinian Territories, approximately one in two women has been subjected to violence during her lifetime. Since 2012, Jerusalem Center for Women - along with other women's rights organizations - has used the 16 Days Campaign to raise awareness of the reality of violence and to push for positive change to increase women's safety.
