

November 2013

Tuesday, 17 December 2013

Monitoring Jerusalem is a monthly situation report denouncing the continuous human rights violations by the Israeli Occupation Forces in occupied East Jerusalem, in the form of house demolitions, home evictions, discrimination policies and violence against Palestinians.

In this month's feature story Majidah shares her feelings about the importance of the Identity Card's color and how this challenges her life. Read her story.

This time we would like to rivet on the Global 16 Days of Activism Against Gender-Based Violence Campaign, a campaign aiming to raise awareness to the reality of violence and to push for positive change to increase women's safety.
